DESIGN REVIEW

# Arabic-first dashboard checklist

Tick each line before the screen goes to development.

- [ ] The Arabic screen was designed and tested first.
- [ ] Layout uses start and end, never left and right.
- [ ] Only icons that show a direction are mirrored.
- [ ] Numbers, codes and phone numbers are isolated with bdi.
- [ ] One kind of digits is used across the product.
- [ ] Arabic text has room to grow and is never letter-spaced.
